Reminder for Laser Equipment: Summer Heat Protection and Winter Freeze Prevention.

Product Parameters

Model: BPC-500/BPC-1000

Laser Power: 500W/1000W

Laser Wavelength: 1060-1080nm

Laser Working Mode: Pulsed

Pulse Width: 10-500ns(BPC-500) / 30-500ns(BPC-1000)

Frequency Range: 1-1000kHz(BPC-500/BPC-1000)

Fiber Cable Length: 10m(BPC-500/BPC-1000)

Adjustable Scanning Range: 10-100mm(F254 Len Standard)

Cooling Method: Water Cooling(BPC-500/BPC-1000)

Working Voltage: AC 220V±10%

Power Consumption: 4KW/7KW

Anti-Reflection Protection: Yes

Operation Temperature: 0-35°C

Operation Humidity: ≤80%

Machine Demension: 1010*600*1010mm/1050*670*1070mm

Net Weight: 170kg/228kg

Features and Advantages

- Higher Cleaning Efficiency. No damage to the substrate. Suitable for fine cleaning.
- Easy cleaning without effort. Can cooperate with manipulator, realize automatic cleaning, makes the cleaning effect more evenly.
- Double wobble smart cleaning head. Easy to operate and good stability. Support 8 cleaning modes, applicable to complex scenes.
- Thick sheet metal chassis. Strong structure, anti-deformation and good heat dissipation. 10m fiber cable for larger range of activities.
- Smart Control Panel. Full touch screen operation interface. Support multilingual process library design, set once and use at any time.
- Passed multiple rigorous tests (High temperature/Vibration/Anti-interference/Fatigue/High humidity/Bend resistance test), reliable quality, stable and durable.

Application

- Suitable for rust removal, oil removal, paint removal, coating removal, oxidation layer removal, plating removal, mold cleaning, adhesive layer removal, cultural relic restoration, etc.
- Can be used in aerospace, mold, automobile, food, tire hub, pharmaceutical, chemical and other industries.
